

## What Year is my EZGO® Golf Cart?

First you will need to locate your serial number. Listed below you will find the most common places EZGO has put their serial number plates as well as a comprehensive visual reference guide to help you with determining which EZGO model you have.

### EZGO Medalist / TXT (1994 - Present)

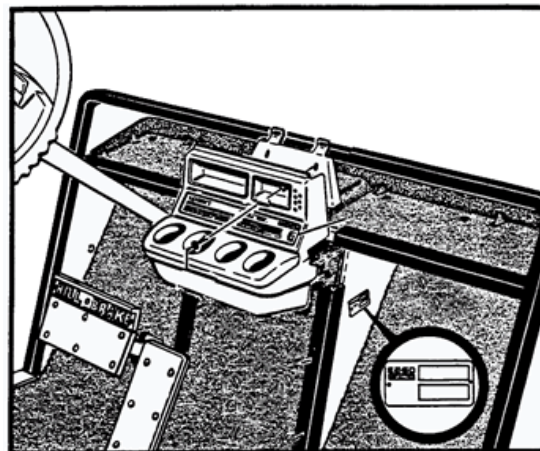

### EZGO Medalist and TXT models (1994 to present)

The serial number and manufacturer's number for these EZGO golf cart models can be found on a plate located in the glove box on the passenger's side of the vehicle. The serial number is either six or seven numbers and does not indicate the model year. The manufacturer's number does reflect the model year. This series will have one letter and three or four numbers which will include two numbers indicating the last two digits of the year it was manufactured.

The order of these numbers and one letter have changed several times over the years, but you should be able to figure it out. If not, e-mail ([Support@buggiesunlimited.com](mailto:Support@buggiesunlimited.com)) us with the manufacturer's number and we will confirm the year in a return e-mail within 24 hours.
